Steel Vent Panels for Half Rack

The SVSPH series steel vent panel is sized to fit Lowell's half racks (LHFR Series). Each panel measures 10.4 inches wide by one or two rack units and includes a 0.5 in. flange. Formed with 18-gauge steel, the panel has a pattern of front slots for passive ventilation. Black semi-gloss powder epoxy finish. Made in the USA with certified US steel.

Features

- 18-gauge steel
- 0.5 inch flange
- Width: 10.4 in. [264mm]
- Racking Space: 1U or 2U
- Black semi-gloss powder epoxy finish
- Made in the USA with 100% certified U.S. steel
