

LUH-VRG mounted to a recessed Unihorn (with the horn's trim ring in place).

LUH-VRG mounted directly to a Unihorn (without a trim ring) plus optional U-bracket #LUH-BRKT for surface-mount.

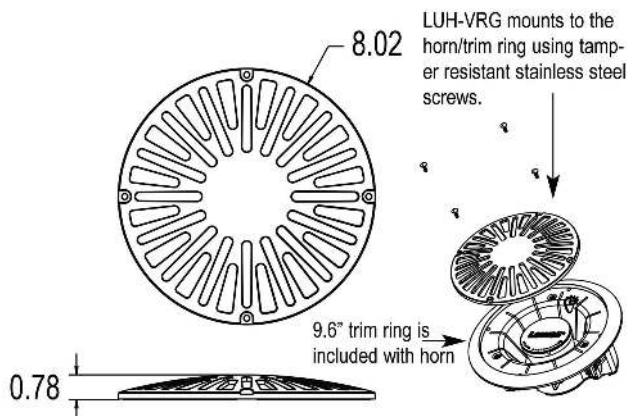

### features . . . . .

- **Description:** Cast aluminum grille is designed to protect Lowell Unihorn™ model #LUH-15T, #LUH-15TA, #LUH-15TX, #LUH-158 from damage where vandalism and abuse are a concern such as in schools, correctional facilities, transportation terminals, manufacturing areas, hospitals, distribution centers, and similar areas. The grille allows clear sound projection while protecting the mounted components.
- **Construction:**
  - Rugged cast-aluminum with secondary stainless steel barrier screen to prevent pointed objects from causing damage to mounted components
  - 8.02" diameter x 0.78"D
  - Network Grey powder epoxy finish
  - Includes four (4) tamper-resistant, stainless steel 8-32 spanner screws, which can be used to mount the grille directly to the 9.6" diameter trim ring that's included with some Unihorn models.
  - Includes four (4) 8-32 stainless steel nuts, which are used to mount the grille to a Unihorn without a trim ring.
- **Compatibility:**
  - Unihorn™ models: #LUH-15T, #LUH-15TA, #LUH-15TX, #LUH-158
  - Backbox: #LUH-BOX, #LUH-BOX-INT
  - Trim Plate (for optional backbox): #LUH-TP

### a&e specifications . . . . .

The vandal-resistant grille shall be Lowell model #LUH-VRG, which shall be heavy duty cast aluminum with a stainless steel barrier screen to protect the horn from damage. The round grille shall have an 8.02 in. diameter with a mounting projection of 0.78 in. It shall include stainless steel 8-32 spanner screws to mount to the trim ring (included with some models of Unihorn), and 8-32 stainless steel nuts to mount directly to the Unihorn when a trim ring is not used. The grille shall have a Network Grey powder epoxy finish.

### typical installation . . . . .

Note: The grille includes four (4) 8-32 stainless steel nuts (to use with spanner head screws) and mount the grille directly to the front of the Unihorn when the horn's trim ring is not used.
