

## Model

# SDV Series rack side panels

Steel side panels are an optional accessory for LXR and LVR Series slim frame racks. See rack series spec sheets for the model number required for each rack.

### Features

- 18-gauge certified U.S. steel
- Vented top and bottom
- Black wrinkle powder epoxy finish
- 0.625"D (increases rack width 1.25")
- Integral handles (one or two depending on size of panel)
- Made in the USA

### A&E Specifications

The rack shall include a pair of removable side panels Model No. \_\_\_\_\_, which shall be 18-gauge certified U.S. steel with integral handles. Finish shall be black wrinkle powder epoxy.

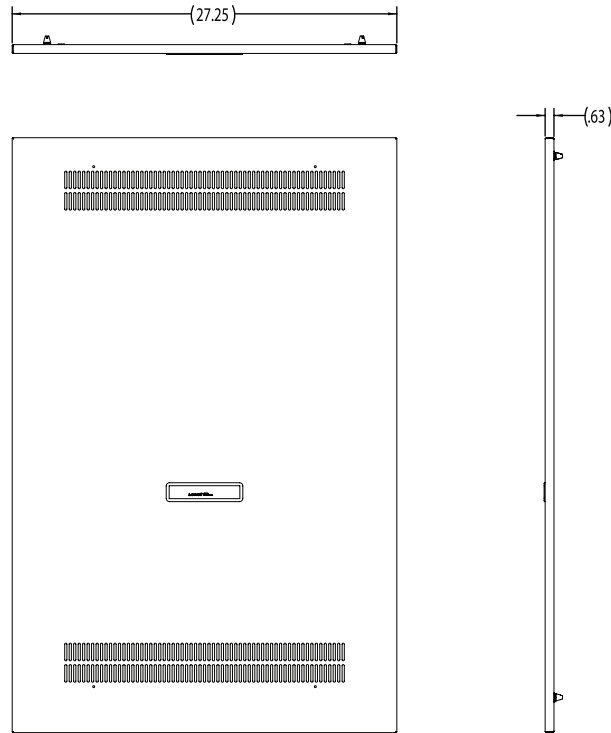

Side panels have top/bottom vents and integral handle.

Model No's. SDV-3026, SDV-3826 and SDV-4426 have two integral handles.

## Technical Drawings
