

Model No.

KOP-AC1502: Knockout panel w/power

- **Two (2) 15A NEMA outlets w/cord**
- **Provides quick cord access for portable racks**

Steel panel with cutouts and power outlets replaces a rear knockout panel in specified Lowell racks, adding a convenient way to access power and facilitate transport. Eliminates power cord trailing behind portable racks.

Features

- Steel panel with black finish and two oblong cutouts (rear, base) is ideal for Lowell rack series LPR and LPPR
- Two NEMA 5-15A outlets
- 6 ft. attached cord w/NEMA 5-15P plug
- Power cord feeds up/out through oblong cutouts, allowing quick connections to wall outlet.
- When finished, return cord through openings, allowing it to rest inside rack until next use.

A & E Specifications

The rack shall include Lowell knockout panel Model No. KOP-AC1502, which shall feature two NEMA 5-15A outlets with 6 ft. cord and NEMA 5-15P plug. The steel panel with black powder epoxy finish shall have cutouts in the base and rear to allow power cord access and storage inside rack.

Rear view

Mounts in rear knockout panel.
