

## Model Series

# LHR-RRT Rack Rails

- Rear mounting rails for LHR Series host rack
- Fits inner (pull-out) rack

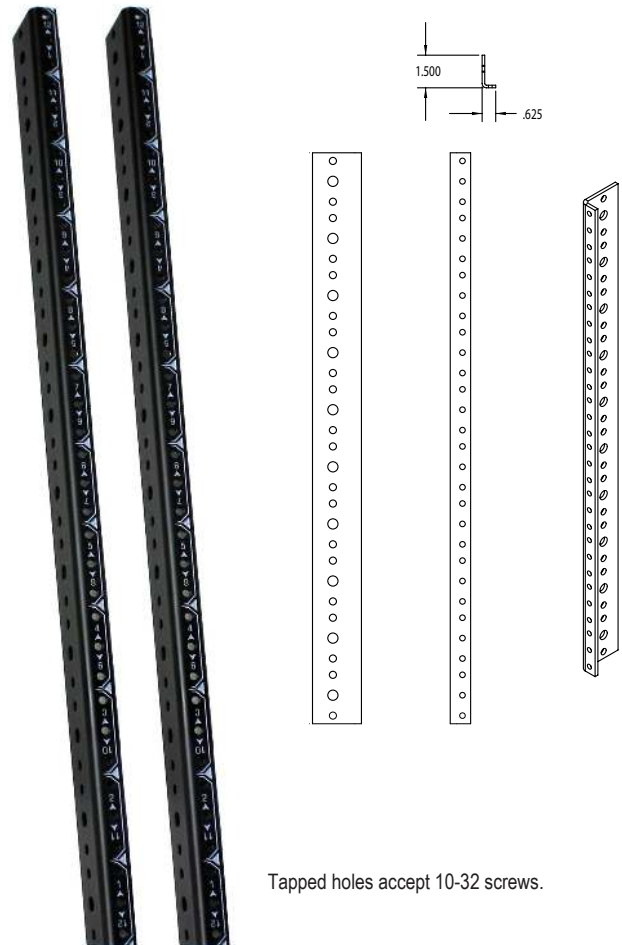

Rack rails accept threaded 10-32 screws and feature a printed scale showing rack unit increments to aid set-up. The 1U position should be placed at the bottom of the rack to facilitate consistent loading of equipment.

### Features

- For use with Lowell LHR Series
- 11-gauge U.S. steel
- Fixed hole positions
- Black powder epoxy finish
- Made in the USA with 100% certified US steel
- Printed RU increments to aid equipment mounting
- Includes mounting hardware
- Sold in pairs
- Includes hardware

### A & E Specifications

The LHR rack shall include a pair of rear mounting rails, Lowell Model LHR-RRT-\_\_\_\_ (24, 35, 44). The rails shall be fabricated from 11-gauge U.S. steel and have a black powder epoxy finish. Each rail shall measure \_\_\_\_ (24, 35, 44) rack units, be tapped on one side to accept threaded 10-32 screws, and feature a printed scale showing rack unit increments.
